To: Prospective Bidders

**Addendum No.: 1, E2T44, Financial Project # 42556945215
Fuel Dispensers for Perry Maintenance Facility**

QUESTION AND ANSWER:

QUESTION: Are the high hose retrievers being replaced and supplied by the contractor on this site?

ANSWER: Yes, the high hose retractors are being replaced and supplied by the contractor.

QUESTION: What are you referring to as "reflectors" on the hoses in Item #2 under contractor responsibilities?

ANSWER: It should have read Retractors. Please see below for the Revised Scope.

QUESTION: It states that the gasoline hoses to be ¾". Are the diesel hoses and nozzles to be ¾" as well or are they 1"? Did I understand that "Exhibit 5 Insurance Certificate" has to be completed and submitted with my bid proposal or is this only to the contractor at the time of the award?

ANSWER: The diesel hoses and nozzles shall be the larger 1" and Unleaded fuel shall be ¾". Yes you are required to provide exhibit 5 Insurance Certificate with the bid.

REVISED SCOPE OF SERVICES

LOCATION OF PROJECT

Florida Department of Transportation

Perry Maintenance Facility

657 Plantation Road

Perry, Florida 32348

CONTRACTORS' RESPONSIBILITIES

The contractor shall furnish all equipment, material and labor required to replace the fuel dispensers at the Perry Maintenance Facility specified below:

1. All work shall be performed in accordance with all applicable building, fire and environmental codes, and permitted through all required Federal, State and Local agencies.
2. Disconnect, remove, and properly dispose of existing fuel dispensers at both locations. Existing hoses, nozzles, breakaways and swivels shall remain the property of the owner. Furnish and install new commercial grade mechanical fuel dispensers in accordance with manufacturer's specifications. New dispensers shall include new hoses ¾" for gasoline, nozzles (with boots), breakaways and swivels. The average hose length is 13'-5" and all

new hoses shall have **retractors**. Fuel dispensers shall have lighted displays depicting only gallons dispensed. Unleaded dispensers shall have a standard flow rate of 15 gallons per minute (gpm) minimum, and diesel dispensers shall have a high flow rate of 22 gpm minimum. All work is to be performed from the shear valve up. Dispensers shall be bio-fuel compatible for E-15 unleaded fuels. Dispenser markings and labels shall be coordinated with the owner and furnished and installed by the contractor.

3. A total of Four (4) dispensers shall be installed as follows:

Perry Maintenance Facility:

Two (2) two-hose unleaded dispensers

Two (2) two-hose diesel dispensers

The hydro-static testing will be performed on the spill buckets at both sites and repairs made prior to bid letting. Perry Maintenance Facility has in ground spill buckets and dispenser integrated spill buckets. Dispenser removal and installation shall include all utility and plumbing connections as well as startup, testing, and certification requirements.

4. Contractor shall startup, test and certify the operation of each dispenser/site per Florida Department of Environmental Protection (FDEP) Agency specifications. Provide all required documentation to the owner and FDEP.
5. Dispenser manufactures: Subject to compliance with project specifications, available manufactures offering products that may be incorporated into this project include, but are not limited to, the following:

Gilbarco

Gasboy

Dresser Wayne

All new fuel dispensers are to be connected to the existing Fuel Master equipment and local network system (if applicable). Contractor shall coordinate all connections with Fuel Master and Department Office of Information Services (OIS) personnel.

All work shall be performed between the hours of 7:00 A.M. and 5:00 P.M., Monday – Thursday, and shall be coordinated with the owners’ project manager to ensure minimal disruption to the yards activities. The contractor shall clear all debris from the work area at the end of each workday.

Contractor shall field verify all fuel dispenser specifications and attachment requirements prior to submitting bid.

You must sign, date and fax a copy of this addendum back to me by close of business today to indicate receipt. The bidder is required to acknowledge the addendum in the space provided on the proposal.
